(Herbal Roots Tonic Drink)

AYURVEDIC HUT INDIVIDUAL TREATMENTS

ABHYANGA

This is a simple oil application with a gentle rubbing using warm prescribed herbal oil. This has been found to expel toxins, alleviate fatigue, delay aging, improve blood circulation, enhance the immune system and rejuvenate the body.

UDWARTHANAM

This is a special treatment to tone the muscles, reduce fat and alleviate water retention in the body. A course of this treatment can reduce body weight. The technique consists of the gentle application of prescribed oil followed by the rubbing of herbal paste in the opposite direction of your energy flow.

DINACHARYA

This special Ayurvedic body treatment starts with the cleansing of the five sensory organs followed by a traditional Indian massage. Then the body is steamed with a special herbal pouch to open the body channels and nourish all five sense organs. Simple attention paid daily to our sense organs can lead to a qualitative change in the overall health status of the body and mind.

BODY TREATMENTS

CAMPUR-CAMPUR*

The name Campur-Campur means a blending of varieties in Malay. Combining the best techniques of Malay and Thai massage, our special creation uses touch, tone and aromatherapy to give you a memorable experience. The scent of lemon grass and pandan leaves fills the air as steamed herbs are pressed along the body using a traditional steam pouch.

MASSAGE THERAPY

MALAY

The art of traditional Malay massage is passed on from generation to generation. The technique consists of long kneading strokes that focus on the muscles and pressure applied to various points on the body. This treatment uses oil made with special local ingredients such as turmeric, cinnamon, garlic, onion and citronella, that invigorates circulation.

BALINESE

This massage combines a historical reference from many cultures, especially Indian, Chinese and European influences, which form the foundation of Balinese traditions. Thus, the ritual offers techniques which vary in tempos of acupressure, rolling motions, long strokes and percussion, which provide an invigorating and energising experience for the body.

SWEDISH

This classic oil massage works predominantly with the muscles, soft tissues, and joints, utilising long, rhythmic strokes. Please request light, medium or deep pressure.

MASSAGE THERAPY

FOOT MASSAGE

The theory of reflexology lies in the understanding that the feet have reflex points that correspond to the internal organs and limbs to balance all the functions of the body. By stimulating these points, the circulation of the entire body is improved.

TUI-NA AN-MO (MASSAGE)

One of the major differences between Chinese massage and other systems of massage is the focus placed on the acu-points and directional flow of the subtle channels in the body. Tui-na massage is more than a system of relaxation and tension release. Although attention is also placed on the tendo-muscular system, the focus on the subtle channels allows one to influence the organs on a deeper level and treat complex complaints.

SKIN CARE

SUNDARI FACIAL

Originating from the Himalayan region and using 100% natural essential oils. Sundari is an anti-aging skin care range, based on the 5,000 years of Ayurvedic wisdom and philosophy. Suits all skin types; balances and revitalizes.

SPA RECOMMENDATIONS AND GUIDELINES

OPERATION HOURS

Spa Treatments: 11.00am - 7.00pm

RESERVATIONS

Advance reservations are recommended. If in-house, touch 580/581 between 11.00am and 7.00pm. You may also call Spa Village Pangkor Laut at +60 18 923 9774 or e-mail spavillageplr@ytlhotels.com.my.
